

High-Impact Contributors from Patina Help You Succeed

Patina Solutions partnered with Centare to create a web-based mentoring application to pair mentees with Patina's experienced mentors.

Patina Solutions has been helping organizations get more done and accelerate success since 2008. Patina's professionals are industry veterans with 25+ years of operational experience who deliver specialized expertise targeted to their clients' unique needs and circumstances. Patina enables companies to get results utilizing only the resources they need, when they need them.

Benefits

 Owned by Patina Solutions and not a third party

 Clean look and feel

 Easy access to detailed reports

 Includes Patina's custom matching algorithm

 Mobile responsive

 Admin oversight of matches

The Project

Patina Solutions currently manages a mentoring application that allows their clients the ability to match mentors with potential mentees by creating profiles and allowing mentees the ability to find a mentor that matches the criteria they are searching for. Patina looked to Centare for improvements to the workflow. A Centare product development team partnered with Patina Solutions to identify key improvements to the functionality and features that were important to their mentoring services. The results within the application, Mentor Bank, improved the user experience by making the profile setup intuitive, the mentor matching process efficient and the design for the website modern.

Mobile Responsive

Mentees and mentors can access Mentor Bank on any device.

Integrated with LinkedIn for Authentication

Easy access to the application using LinkedIn authentication.
